CTL7

Dependable & efficient

- Energy efficient
 - Water-saver cycle reduces hot water consumption
- Lower Costs
 - A ½ HP motor produces a 710 RPM spin speed, which keeps drying times and utility costs down
- Rugged reliability
 - Solid construction and heavy-duty components deliver the strength necessary for years of dependable service
- Serviceability
 - 100% front serviceable, meaning less downtime
- Clean results
 - A full size agitator with a 210° agitation stroke - the longest in the industry - produces excellent washing results
- Maximum productivity
 - Superior out-of-balance protection to ensure cycles continue without stopping

Control

- E-Mech control
 - The E-Mech Control on IPSO top load washers assures reliable performance and helps optimize efficiency. The control panel offers convenient features - including an energy-saving cycle with an electronic timer
- Push-To-Start button
 - Features simple, push-to-start activation with an "In Use" LED light
- Six water and cycle selections
 - Provides three energy-saving cycles plus three regular cycles: two-speed wash and spin actions and a delicate cycle
